

PRESS RELEASE – INTENDED FOR IMMEDIATE RELEASE

AeroBrigham Continues Bell 407 Deliveries to Survival Flight, Inc.

December 9, 2016 - Decatur, Texas

North Texas based professional aircraft maintenance, repair and support provider, AeroBrigham, has announced the recent delivery of an air medical mission configured Bell 407 to Mesa, Arizona, based Survival Flight, Inc. The recent delivery marks the fourth aircraft that AeroBrigham has performed extensive paint, interior, avionics, airframe improvements, maintenance and component overhauls for Survival Flight, Inc., and will induct another 407 for the company prior to year-end. Survival Flight, Inc. is an FAR Part 135 air medical transport provider with fixed and rotary wing bases located throughout the United States.

AeroBrigham president, co-owner and longtime industry maintenance professional, David Brigham commented, "Survival Flight continues to grow their air medical presence around the country and we're certainly fortunate to be the company's foremost supplier of modification and support services for their fleet. The confidence that the company has in AeroBrigham to deliver a professionally completed product on time and on budget is a testament to our seasoned professionals and their dedication."

Located at the Decatur Municipal Airport (KLUD) in Decatur, Texas north of the Dallas/Ft. Worth area, AeroBrigham is an FAR Part 145 repair station that offers complete maintenance, repair and overhaul services, as well as inclusive helicopter and airplane completion services including aircraft interiors, avionics installation and modification, paint and heavy maintenance. AeroBrigham will be exhibiting during the upcoming Air Medical Transport Conference (AMTC) in Charlotte, North Carolina from 13-15 December. Additional information regarding the extensive helicopter and airplane support capabilities at AeroBrigham can be found at www.aerobrigham.com or by calling 940.626.4849.
